

Hi Dennis and Brian:

I wanted to update you on the use of EVPL for CA Gold reporting. Just as I suspected, there are other ways to get the data in for the MIS Reports.

While EVPL is primarily used for orientation, assessment and advisement, it is not the only form that is used for that.

TEST and/or CON are used in lieu of EVPL for tracking this data. Additionally, for orientation specifically, some schools opt to register students in sections. Whichever form is used, MATI should reflect the update.

Please let me know if you have any questions.

Louise
