Add a YouTube Video to the Main Column

Note: You may also add videos in the right column using widgets. For guidance on how to add videos using widgets please see our other tutorials.

To add a video to the main column:

1. Select the page you wish to add the video to and go to the Edit tab. In the Main Content box select the Insert/Edit Embedded Media icon.

2. Select YouTube under the Type of Video you would like to embed.
3. Select the URL for the video you wish to embed. You can also change the dimensions.
4. Then select Insert.

5. You will see a yellow block where the video will appear when submitted.
6. Once you are finished editing your page, click Submit. Don’t forget to publish your page.
