Change the Number of Columns

The Standard Page Template allows you to have a two or three column page.

1. To change the number of columns on your page open the page you would like to edit and select the *Edit* tab. Scroll down to the *Sidebar Content* box.

2. If you would like three columns on your page check *Yes* next to *Display Right Column*. If you would like two columns select *No*.
3. Once you are finished editing your page click *Submit*.
4. Once you have completed editing your page don’t forget to publish it. Select the *Publish* tab and click *Submit*.
