How to Add a Photo Gallery Page

The Photo Gallery Page template allows you to display a series of images in a slideshow.

1. To create photo gallery pages select Photo Gallery Page from the New menu.

2. Select your Parent Folder; enter the Display Name and Title.
3. Then enter a Main Title and any content you would like to display on your page. You may enter information into the Main Content field, this is optional.

4. To add photos to your gallery you must have uploaded the images you wish to use to Cascade. Please see our other tutorials on how to upload images.

5. Select the Image field and find the photo you wish to add and enter a title. The Caption field is optional.

   **Note:** The required images size is 680 pixels wide by 450 pixels high

6. You may add more than one image, do so by selecting the green plus sign, you can also delete an image by clicking the red minus sign or change the order that the images will display by clicking the blue up/down arrow.
Note: You may also add content below your slideshow (this is optional).

7. Once you have finished adding images to your gallery click Submit.

8. Once you have completed editing your page don’t forget to publish it. Select the Publish tab and click Submit.
9. Your photos should display on your page. You may view them by selecting the image you wish to view in the slides underneath the current image.
