

Viewing My Courses

Blackboard 9.1 SP13

Once you log into Blackboard you will see your list of courses within the "My Courses" area. Blackboard courses are made available by each instructor; depending on when the instructor makes their course available you may or may not see the course listed in the My Courses area.

Most instructors do not make their courses available until the first day of class.

View My Courses

Locate your list of courses within the My Courses box, under the heading "Courses in which you are enrolled."

Most instructors do not make their courses available until the first day of class. If you login to Blackboard early and do not see your class listed do not panic. You are actually enrolled in the class, but the instructor has not made the course site available for students to use. Blackboard courses are made available by each instructor when they want you to begin using the course site, so you may see some course sites available before the start of the semester, some right at the beginning of the semester, and some courses you are enrolled in may never have the Blackboard course site made available by the instructor.

Contact your Instructor

If your Blackboard course site is not made available after the first day of class and you have questions about when your course will be made available, please contact your instructor.

Instructor contact information may be found online at <http://www.gcccd.edu>

- 1) Select **Find People**
- 2) Select **Faculty & Staff Directory**

Staff Directory

From the Staff Directory page locate your instructor by either first name or last name according to the College where they teach.

When contacting your instructor it is advised that you enter the name of your class in the subject line. Keep your message brief. Let your instructor know you tried to access their Blackboard class site, but saw that the class is unavailable. Ask at what date you can expect to see the class made available for you to access. Sign your email with your full name.
