

Cuyamaca College Weight Training Classroom

Project Budget:

\$0.39 Million

Construction Duration:

May 2015 – July 2015

Funding Source:

Proposition V

Scope/Summary:

After the previous weight-lifting facility was damaged in a storm, Cuyamaca College planned for a 36'x40' modular building to serve as an athletic classroom for the weight-lifting instructional program. New rubberized mats and weight-lifting equipment were installed.

Project Team:

- **Architect:** Harley Ellis Devereaux
