The District shall provide Student Success and Support Program services, which includes components of matriculation, to students for the purpose of furthering equality of educational opportunity and academic success. The purpose of the Student Success and Support Program is to provide students with the support necessary to assist them in completing their educational goals and identified course of study through the District's established programs, policies, and requirements.

The Chancellor shall establish procedures to assure implementation of Student Success and Support Program services that comply with all appropriate local and state regulations.

**Commented [CW1]:** Per Moriah she would like to change it to use the word equitable instead of equality so it would read: for the purpose of furthering equitable educational opportunity and academic success.

Aaron and I agree with that change.

The counseling Department at Cuyamaca agrees with the change.
