College Catalog 2023-2024

Our projects CAT & CIM

IEPI Grant
2021-2022

RFP & vendor selection processes.

CAT Implementation
2022-2023

GCCCD-GC-CC begin work on development and data integration.

Launch
2023-2024

October 2023 we published our first edition.

# 1 DynamicCatalog

"Immersive, interactive catalogs can help
students quickly find the right classes
and uncover new possibilities."

- CourseLeaf

Why it matters...

1

Student Success

A dynamic catalog increases access to information and simplifies the steps by which to obtain it.

2

Institutional Success

The implementation of a dynamic catalog that has the capacity to share information with CIM and other software increases our efficiency and accuracy.

3

Data Integrity

Increased visibility to years of work gone undone or without necessity. We were able to scrub course data and produce a more accurate catalog than in years prior.

Takeaways…

Room for Growth

Courses and Programs in CAT & CIM will increase the accuracy of our information.

Curriculum Specialist

We need a dedicated staff member to manage data for CAT and CIM.

Continuity

The catalogs look and feel similar. First time ever!

Increased Efficiency

There is great potential to use the data in CAT and soon CIM to reduce the manual reproduction of the catalog.

Thank you!
