The Chancellor is directed to develop appropriate administrative procedures to implement the provisions of the Education Code, which authorize the securing of copyrights in the name of the District to all copyrightable works developed by the District, including, but not limited to, works for hire or commissioned works.

The procedures developed by the Chancellor shall assure that the District may use, sell, give, or exchange published materials and may license materials prepared by the District in connection with its curricular and special services.

In the development of these procedures, the Chancellor shall solicit input from the proper representatives of the college community in accordance with the District's policies regarding shared local decision making and reach agreement with exclusive bargaining representatives on issues within the scope of collective bargaining.
