The Chancellor shall ensure that the colleges within the District develop common administrative due-process procedures to facilitate a student's right to request redress of grievances.

Each college president shall direct all staff members to respect the rights of students to address a grievance through appropriate channels according to established procedures.

For purposes of this policy a student complaint or grievance shall be any such complaint or grievance that arises out of actions, procedures, or policies of the Governing Board or its employees, but shall not include actions to suspend or expel a student.
