

## **An Invitation from Chancellor Cindy L. Miles and the Governing Board Members**

### **Three of Fourteen: Water/Wastewater Technology Additive Manufacturing (CADD Technology) Environmental Health & Safety Management**

**Water/Wastewater  
Technology Resources**  
F607 @ 4:10

How to monitor,  
distribute, and treat  
water from a variety of  
sources

**Additive Manufacturing &  
CADD Technology**  
F601 @ 4:25

How to design parts used in  
manufacturing and "print"  
them as objects

**Environmental Health &  
Safety Management**  
F724 @ 4:40

How to train for disaster  
preparedness and pollution  
prevention

From the newest in technology-based Additive (3-D) Manufacturing to the eco-centered programs of Water/Wastewater Technology and Environmental Health and Safety Management, the March tour of Career and Technical Education (CTE) program at Cuyamaca promises to inform and educate those who join us.

**Wednesday, March 16, 2016, 4:00 p.m.**  
**Beginning in the Cuyamaca Student Center, I-207**
